AUVISO

## **auviso – audio visual solutions ag**

# auviso is a technical service provider of events and media technology installations.

We work with great passion in the field of event and media technology on a daily basis and have acquired plenty of expert knowledge and experience since the company was founded in 2003. auviso – audio visual solutions ag is one of the leading centres of excellence for audio-visual solutions in Switzerland. As a full-service provider for events and media technology installations, we find the right solution for any event and location, temporary or permanent. The owner-managed company has around 160 employees.

## Solutions from a single source.

From designing and planning your solution through to implementing and maintaining it. Content and technology. Thanks to our experts with many years of experience, we can offer a full service from a single source. At auviso, as our customer you are assigned a personal contact who coordinates an experienced team internally. We have all the necessary resources and ensure that your project is implemented successfully. Together we will find the right solution for your ideas and vision.

# Events

## Supporting your event with expertise and passion.

You have the event, we have the comprehensive range of services to ensure it is designed and implemented successfully: a team of experienced experts, modern equipment and innovative ideas in line with your vision and options. Let us impress you and surprise your target group in terms of content and technology. Whether it's a live or digital event, we are the right partner for you.

### Event management

We realise visions and turn them into an experience. Let us find the right location and partner for you to ensure your event runs smoothly.

### Event design

We create unforgettable event moments for you and your guests that combine space, equipment, scenography and technology. We think out of the box and leave lasting impressions on your guests.

### Content production

With multimedia storytelling, your messages reach your recipients. Our creative minds produce your multimedia content in line with your target groups.

### Event technology

We can provide the optimum technology and skilled experts whether your event is large or small, live or digital. Our services revolve around providing you with the best quality.

### Venue services

As a venue partner, we can operate your fixed in-house system professionally on your behalf and temporarily expand it with suitable equipment from our wide selection of equipment for hire.

# Systems

## The best solution especially for to you – from a single source.

Our multimedia solutions address all the senses. auviso develops customised solutions for you: small or large, indoor or outdoor. We are your partner for every environment: auditoria and educational institutions, event locations | hospitality | gastronomy, business premises, experiences and visitor centres, sports stadiums, public transport, sports facilities or exclusive living areas.

Whether you need support with planning, implementation or support, our specialist planners, developers, installers and service technicians will find an innovative solution that is tailored to your needs, always using the latest technology.

### Specialist planning

Our focus is clear when we design and plan your media technology installation: it must be easy to use, cost-effective, environmentally-friendly, in line with the construction industry's phase model.

### Media technology

We design, plan and install your media technology based on your requirements – user-friendly, sustainably and irrespective of the manufacturer.

### Control room

Maintain an overview when it counts. We offer you customised «control room» solutions to ensure that the control room and adjacent rooms are tailored optimally to your individual requirements.

### Residential

High-quality and intelligent media technology that is intuitive to use is becoming increasingly popular in our homes. We can also turn your home into a multifunctional concert hall.

### Digital signage

Whether you use electronic display systems, digital signs or large-screen projections inside or out, your digital communication is enhanced by digital signage solutions.

### Service | Maintenance

After the installation, we will maintain your audio-visual systems to make sure they are ready for use at all times. Our specialists are always on top of things and offer competent support.

## Our values

# Event and media technology are our DNA.

### Innovative solutions

We create competitive advantages for our customers through innovation and technological edge. Our services are of high quality and inspire our customers.

### Competent employees with passion

Our employees are the key to our success. Skilled and experienced experts can professionally implement even demanding projects. We focus specifically on professional education and training and support their personal development.

### Respect internally and externally

The relationship between our employees and also with our customers and partners is one of mutual respect, fair and honest behaviour and open communication.

### Real full service – auviso 360°

We live according to the motto «solutions from a single source» and provide our customers with real full service.

### Sustainability

Ecological responsibility towards our fellow human beings and the environment is important to us. We manage our resources carefully and promote recycling as well as pioneering and green technologies.
